Tribute from Haywards Funerals

Haywards Funerals staff send our condolences to family and friends.

Tribute from Brenda

Relation: My cousin

I am so very sorry Auntie Delaine and Uncle Farrell. It's almost too much to bear I'm sure. Thinking of you and asking the Universe to guide you through another tough time....

Tribute from Angelique Olivier

Relation: Sister-in-law

Make time to smell the flowers that grow along the road, make time to lend a helping hand to lighten someone's load. Make time from dreary daily tasks, and take some time to play. Make time to visit with a friend, who might need your help today. Make time to share your inner thoughts , with someone close to you, and you might find the better side of the you you never knew.

(Pamela Randolph)

Wish we had more time .. you left way too soon ! Your in my heart forever, your my friend and family,
Angelique XOXO

Tribute from Sheri Berkowitz

Relation: Friend

Dear Delaine and Farrell

As I think of Robin in these days since she has left this realm I think of her deeply courageous spiritual questing. I realize that because she went to India, early and young and made the connection to Osho that we went to that Ashram. Then so much of my own spiritual development flows from that initiative. I know no other person who has done a year's meditation retreat but Robin/Cheryl. Her quest was true and valiant.

I enjoyed her always and feel a sadness that we won't meet again this lifetime.

A very loving and special woman who had loving support extraordinaire from both of you as her gentle soul journeyed this life.

Tribute from Noel Russell Austin

Relation: Friends

When I first saw you I was amazed at how beautiful you looked. Then I saw your warm loving heart

and I was changed forever. Have a wonderful journey, I miss you.
Love Noel

Robin... you were a colleague, confidant and friend. Your presence will be missed, but your memory will live on in the many members of our shared organization who follow in your footsteps. God speed and we'll see you again when we make the journey.

Robin will be greatly missed by everyone in the Starfleet Academy staff. May her memory shine like the stars.

Tribute from William Ramsay

Relation: Friend

I only knew Robin for a few short years, and only from afar (online), but you didn't really have to try very hard to see how wonderful of a person she was, and the impact she had on those around her. She will be sorely missed by all who knew her.

Tribute from Cher Schleigh

Relation: Friend

Robin was a kind and sharing person. I enjoyed working with her at SFA. God Bless

Tribute from Kelli Caplette

Relation: STARFLEET International friends and team members

I didn't have the pleasure of meeting Robin in person, but we got to know each other via email. She was a great person-always willing to help and a great sense of humor. I miss her.

Tribute from Alya Fleming

Relation: Niece

Don't think of her as gone away-
her journey has just begun.
Life holds many facets,
the earth is only one.
Just think of her as resting
from the sorrows and the tears.
In a place of warmth and comfort,
where there are no days or years.
Think how she may be wishing,
that we could know today,
how nothing but our sadness
can really pass away.
And think of her as living

in the hearts of those she's touched.
For nothing loved is ever lost-
And she was loved so much.

It's with a heavy heart that I must say goodbye now; much too soon. Though life is knowing when to let go, for nothing's really gone. Forever in my heart she'll have a place next to my dad. I can be happy that a brother and sister have been reunited in the ether of life. I always know family is walking alongside my journey in life.

My sincere condolences go to my grandma and grandpa, so much sorrow has happened but I guess you can not have the highs without the lows. Like a swell in a wave, nature teaches us many lessons. My love goes to all.

Tribute from Lloyel Hull

Relation: Uncle

We've lost a fine and vibrant woman in Robin. I always enjoyed talking with her - and wish I had done so more. We had many interesting discussions. I recall one time she said she would love to become an astronaut. While trying not to discourage her, I said it was a difficult thing to do, especially the G-test. I told her of Canadian astronaut-to-be who was tested, who just walked out of the centrifuge (others fall or get lifted out). The testers were so amazed they hired him on the spot. Now, I've seen she did what was maybe the next best thing. Her hobby with STARFLEET was a way of achieving here passion. I was so happy to hear this - and that she was so proficient at it. She proudly stated, and rightly so, she was captain of her own ship. I understand this is a considerable accomplishment. I was so pleased for her. And I'll miss her. I regret she was so far away.

Robin was an extremely positive person, a trait we could all cultivate. For this I looked up to her. To me she was always cheerful and gentle. We won't be able to replace her.

Well, she rests now, and we'll all join her later. We love you Robin.

It was a pleasure working with your in STARFLEET. I enjoyed taking your courses and then enjoyed the chats we had regarding my courses in Physics when you took them. I could tell from your questions you were genuinely interested in the topic and I really enjoyed explaining the concepts to you. You left us too soon as I had more I wanted to tell you on the topic of Physics. You will be missed my friend.

Tribute from Katherine Colling

I was shocked to learn that Robin had passed away. She was very active in Starfleet Academy. She graded many of my exams, and although she had many duties in the Academy, she always took time to exchange e-mail letters with me. I extend my sympathy to her family.
